

Ezcap-2-Payer™

What can it do for Ez-Cap® Customers?

EZCAP-2-PAYER™ extracts data from your claim system and formats it for delivery of claims information to payers. Using **DaFoDiL®**, **EZCAP-2-PAYER™** provides an easy means of complying with each payer's unique interpretation of HIPAA 837 specifications, NSF or their own proprietary encounter formats.

Ezcap-2-Payer™ provides the following benefits:

- All interfaces are completely tested against payer's requirements
- Multiple formats to handle all payers
- Edit files based on extensive data checking
- Validation specific to the payer
- Data translation
- Store payer-specific data either in EZ-CAP or in Ezcap-2-Payer™
- Batch Control information reporting
- User-controlled data extraction—get the claims you need
- Data extraction kept separate for each payer
- Use editor for resubmitting rejected data
- Simple and easy to use
