

# CLAIMS-2-EZCAP™ INTERFACE for INSTITUTIONAL CLAIMS

Bowman Interface Technologies' **CLAIMS-2-EZCAP™ Electronic Claims Interface** provides the user with a simple method of **electronically** preparing, loading and managing UB92 data that is required to be uploaded into either the **Professional** or **Hospital** version of EZ-CAP®. The system takes UB92 claim

data from UB92 print files, filters out unwanted patients, extracts the data needed by EZ-CAP®, translates and validates data, prints informational reports and prepares a claim inload file for EZ-LINK®.

## Features

### **Electronic Preparation of Files From UB92**

- Powered by DaFoDiL®** data format description language,
- Determine **Place of Service** for IP or ER based on revenue codes,
- Automatically screen patients to upload based on Insurance Code, Financial Class and Patient Type combinations,
- Extract data necessary for uploading to EZ-CAP®,
- Translate** data for Provider Id's, Place of Service and outcome of Service,
- Validate** data against EZ-CAP® files: Authorization, Provider, Procedure, and Diagnosis.
- Correct data prior to uploading.
- Extensive **audit trails**

### **Prepare Upload File**

- Identify and edit errors prior to EZ-LINK® inload,
- Complete transaction log of all data.

### **Upload File Management**

- Manage Patients in upload files that are rejected by EZ-CAP®,
- Correct offending data,

### **Other Benefits**

- No Rekeying of Data: **CLAIMS-2-EZCAP™** uses data generated by providers billing system to manage capitation without the expense of rekeying any data.
- Preload Data Checking and Verification: **CLAIMS-2-EZCAP™** checks and verifies data before uploading to EZ-CAP® minimizing the number of rejected uploads.
- Over 2000 claims per day per processor.
